Work Experience

2016 - Present

CEVA Logistics | IT Manager

Leading a team of five people. I am responsible of supporting, developing and interacting with suppliers (Project Managing) for WMS and YMS applications in different programming languages (C#, SQL Server, ASP .Net, VB6). I am managing the rebuilt of the applications in newer technologies (JDA, Java, JSF, Prime Faces, Postegress, javascript, APIs). I am creating and redefining the documentation and business flows of the applications using different methodologies such as BPMN. My primary activities is managing the projects using PMI or agile. Interaction with people from EU, UK, Spain, Philippines.

2011 - 2016

GENTERA / Compartamos Banco | IT Project Manager

As a project manager, I was leading a team of four people. I was responsible to conduct new requirements and fixes for the Insurance and Loans application in different programming languages (C#, PHP, Oracle 11g, SQL Server, SAP Mobile Platform, Cordova, Node JS, SAP UI5, java spring) and using waterfall or agile methodologies (PMI or Scrum). In order to follow up the projects I used Microsoft Project, to design the application I used Aris, BPMN, CMMi.

2009 - 2011

XCOMIT | Software Developer

As a software developer, I was responsible to develop the application to manage the sales at FANA S.A. de C.V. using c#, SQL Server, HTML, CSS, javascript, etcetera. This application was a strategic milestone for the company. In addition, I participated building the application to grant loans at Compartamos Banco using C#, SQL Server, SSIS, SSRS, Custom Data Processing Extension, LinQ, Reflection, WCF, Windows Services, etcetera. At Fraiche, I was developing enhancements for the web-based application in ASP .Net (C#).
